

DIGITAL ASSET: PROTECTING INVESTOR CONFIDENCE

20 MARCH 2025 | 9.00AM-5.00PM

PROGRAMME OVERVIEW

This one-day programme will focus on the **latest market trends in digital assets**, including **cryptocurrencies, NFTs, DeFi, and tokenization**, as well as the evolving global and regional **regulatory** landscape. Participants will gain insights into the **opportunities** and **risks** associated with these assets, particularly in relation to **compliance** challenges, **cybersecurity threats**, and **governance** best practices, with a focus on Malaysia, the ASEAN region, and global markets. The programme will also examine how **ESG** (Environmental, Social, and Governance) considerations are being integrated into the digital assets space. Additionally, it will analyse the **sentiment of both institutional and retail investors** toward digital assets and highlight **success stories** from leading market players.

PROGRAMME OBJECTIVE

This programme aims to provide in-depth understanding of the digital asset landscape, emphasising the importance of safeguarding investors' confidence through effective governance, risk management, regulatory compliance, and transparency in creating a stable environment for investors and market participants.
